

Spreader Bar for Forklift

Spreader Bar for Forklift - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader manufacturer in the world. They have been a dedicated maker of spreaders intended for numerous applications like the swap bodies, trailers and handling of containers.

Engineering is done in-house by way of making use of the newest CAD systems and FEM tools. The ELME business presently has over one hundred twenty five workers. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-around the globe.

The ELME product range offers spreaders used for a variety of trailer and container handling operations. Some of their inventory consist of: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers as well as a wide array of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they created over one thousand one hundred fifty spreaders by way of using high quality elements to guarantee dependability and top standards while offering reasonable prices. Major features of ELME consist of design simplicity, market feedback and inventive modular spreader concept.
